Isler'scaping would like to encourage the Windham Village Government and Windham Township Trustees to consolidate these lists to establish a diverse tree planting program. We could well be on our way in creating a Windham Arboretum". The Dirt Daubers Garden Club over the last 20 years has paid for planting numerous tree species at the Community Center entrance and on the Township Green. It is exciting to know that over 23 different tree species have already been planted in the "Windham Aboretum". Imagine groups of school children or individuals walking around the town or cemetery enjoying the different trees and homes.

For further information about Memorial Trees contact Bill Isler at 330-326-2649
